Facilitates easy sharing

GraphicMail Corporate Edition allows the easy sharing of communication resources, such as email lists, images and templates, when sending newsletters from multiple departments and offices.

Enforces brand consistency

GraphicMail Corporate Edition is designed for organisations of all types and sizes. It helps corporate divisions and franchise offices maintain a unified, branded message across their email communication. Sending relevant, sophisticated emails both internally and externally is simplified by this powerful, easy to use, scalable solution.

GraphicMail Corporate Edition includes everything the standard GraphicMail provides, plus:

- 1 The entire application is branded with your logo - accessible to your employees via a link on your company intranet.
- 2 You can create up to 100 sub-accounts from your master GraphicMail account.
- 3 You can share email templates, images and lists between the master account and sub-accounts, whether they are representatives, distributors, franchisees or business units.
- 4 You can control the sending budget and access privileges of each sub-account.
- 5 A dedicated account manager will see to all your support requirements.
- 6 The initial account set up and training is provided.
- 7 We provide creative assistance to ensure maximum email client cross-compatibility.
- 8 We also provide deliverability assistance and consultation to address any issues.
- 9 You get GraphicMail API -- your developers can seamlessly integrate GraphicMail with your CRM and CMS.

GraphicMail Corporate Edition is a total solution combining a robust application with easy-to-use features, configured to your corporate needs and fully supported by your personal account manager. Enjoy streamlined communication that will enhance your client relationships.
